Our morning drive takes us to the Great Falls. When choosing the visits from all the Great Falls attractions, Montana's Museum capital, it was not an easy task.

But as time allows for two stops, our afternoon will include the two most popular:

CM Russell Museum.. *Dedicated to the famed cowboy artist's work, you can find the most complete collection of CM Russell art in Great Falls. Voted Montana's best museum, you will find over 2,000 Russell works of art, and an impressive Browning firearms collection. Next to the museum is Russell's log art studio. Walk inside and experience a time when the West was young, and Charlie's paints and easel sat waiting for his touch. The Russell home, also part of the museum complex, was built in 1900 for \$800.*

Lewis and Clark National Trail Interpretive Center.

Artfully positioned on a scenic bluff overlooking the Missouri River and blending into the landscape, the interpretive center holds North America's most extensive display detailing the Lewis and Clark expedition. Journey through the expedition, beginning in St Louis and ending on the Oregon coast.

Dinner included this evening **"Montana Style"**.
